

## MYSTERIES!

## The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading study of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the following statements, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, nervousness, blues, mania, melancholy, insanity, epilepsy, St. Vitus' dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles' Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It contains neither opiates nor dangerous drugs.

For Sale by all Druggists.

## OFF FOR EMPORIA.

Twenty Topeka Ladies Leave on Missionary Work.

About twenty Topeka ladies went to Emporia this morning to attend the annual meeting and election of officers of the state missionary board of the Congregational church. There will probably be about 200 delegates in attendance. Among the party were Mrs. Guild, president; Mrs. W. A. McCarter, treasurer; and Mrs. W. C. Haskett, of Lawrence, secretary. Among other well known ladies on board were Mrs. Mary Porter, of China, and Miss Hubbard of Turkey, both missionaries. Mrs. Flora P. Hogbin of Sabatha. The board will remain in session tomorrow.

511 Kansas Avenue.

## PLACID DEMOCRATS.

Nothing Seems to Disturb Their Sublime Confidence,

That the Wilson Bill Will Speedily Pass.

## HARMONY IS CERTAIN.

Cleveland Won't Object to Income Tax They Say.

WASHINGTON, May 2.—[Special.]—At the close of March everybody agreed that it was the most wonderful Washington had ever experienced, with the largest number of warm, beautiful days. At the close of April there was a still more emphatic agreement that it was the worst April the oldest inhabitants could remember. There certainly is an unusually large percentage of sickness both in and out of congress, and the discontented portion of the Democrats sometimes say nature is peculiarly unkind to them, as so large a percentage of their majority is on the sick list, and were it not for their new quorum counting rule they would be at the mercy of the minority. It is a little singular that nearly all the disabled are Democrats.

A Reception to Nellie Grant Sartoris.

Despite the sickness, the racket about Coxey's cohorts and all the rest of it, the gayeties of the season seem to go right on, and there are feasting and entertaining, marrying and giving in marriage. Mrs. Nellie Grant Sartoris has received all sorts of attentions and has found that many of the friends of her childhood are still here. At a reception given in her honor by her old schoolmate, the wife of Surgeon Magruder, U. S. N., there were present the chief justice, and lady Mrs. Stanley Matthews, Mrs. Harlan and many others who were friends of the Grants in the olden times. It is noticed that there are rather more popular entertainments in aid of charities than is usual at this season, but only two or three of them were arranged with special reference to the wants of Coxey's army.

Sublime Confidence.

It is quite a pleasure to talk with the cheerful Democrats since the party wings got together, or are supposed to have got together, on the tariff bill and agreed upon its speedy passage. Senator Voorhees, who at one time was so dependent as to admit that the debate might be prolonged till September, at once resumed his ancient confidence that it will end in June, while some southern senators now begin to drop hints about setting a day and taking a final vote so early as the 15th of May.

Of all the many schemes suggested for securing harmony on the income tax, only two seem to have much backing—one that the tax shall expire in a limited term of years unless made permanent by a subsequent congress, and the other that it shall expire whenever the surplus revenues of the federal government are exhausted. As both factions express the most sublime confidence in the result of an appeal to the people, there really seems no reason why the tax should not be for a specified term and leave the question of its continuance to be decided at a subsequent election. Even the Populists admit a friendliness to this scheme, as it never enters their heads to doubt that if the tax be once established the people will never knowingly consent to its abolition.

On the other hand, quite a number of Democrats—nearly all those east of Indiana, in fact—decide that the adoption of an income tax will be only the beginning instead of the end of the fight, for those they represent will fight it continuously so long as it is the law. No secret is made of the fact that Mr. Cleveland would like the bill to come to him without the income feature, but leading Democratic senators have been saying freely for several days that the income clause will remain in the bill, and that all disagreements have been arranged and such harmony insured that the bill will get the vote of 44 Democratic senators.

Gold Men in Minority.

No sooner were appropriations bills so far along that the end was in easy view than the fight for preference in the committee on coinage, weights and measures assumed a very lively phase. After listening some time to Mr. Meyer's appeal for his bill to coin the silver dollar and to the advocates of the other proposed bills the committee jumped the whole lot and decided to make the fight fairly and squarely on Mr. Bland's bill for free coinage. The astonishing fact was that the Meyer bill was laid over till next December with only two dissenting votes, 13 members being present, although the committee had received assurances which might be called direct and personal that the president would sign it. The Democratic members very flatly declared that they were not in the bondmaking business at this stage of the game, and it may be confessed that they were only obeying the voice of their constituents, for in their renominating conventions so far held the issue was made squarely in favor of free silver. Examination of the makeup of this committee shows that, taking silver Republicans and Democrats together, the gold men are in a painful minority indeed.

The friends and enemies of the Nicaragua bill are gathering for a fray, and seeing that the contest is certain to be lively and liable to be prolonged the house commerce committee has postponed the hearings for several days, intending to continue their work with as little interruption as possible when once begun. There are apparently four factions in the fight—those who want Senator Morgan's bill made a law exactly as it was introduced into the senate; those who want government aid extended to the canal, but pursuant to a bill entirely different from Senator Morgan's; those who are opposed to any government aid whatever, and finally a small but apparently able set of advocates who want to begin by negotiations with England, wiping out the Clayton-Bulwer treaty entirely and starting on a new basis.

The New Mexico Bill.

Delegate Joseph of New Mexico is considerably discouraged over the prospects of his bill in the house. It was long delayed because there was no quorum to pass it, but when the new rule for counting a quorum came in the opponents of the New Mexico bill made the point that it could not come under that rule, as it is pending under a special order made last December giving it the right of way during the second morning hour. This requires a vote by tellers, and the new quorum counting rule does not apply to such a vote. Of

course this and every other possible pretense is seized on to delay action upon the bill, while the natural slowness of the senate is relied upon to prevent the passage of any of the new state bills there. The delegates from the four territories are considerably discouraged, and where all were certain that all the bills would go through and the territorial system be ended by this congress there is now little hope of anything till the Fifty-fourth congress.

## WHAT THE N. P. COST.

A Point Gained in the Northern Pacific Investigation.

CHICAGO, May 2.—In the Northern Pacific investigation today Willis Jones, formerly chief engineer, testified as to the cost of the road and station buildings which aggregated \$7,295,500.

Mr. Ives's attorneys have been struggling all along to secure an approximation of the cost of the Chicago terminals and the admission of Mr. Jones's testimony is considered a victory for them. Other witnesses were examined concerning the purchase of land for right of way.

## WANT TRAINS RUN.

Trouble About the Abandoned Carbonade Branch of the Northwestern.

The railroad commissioners have received additional complaints from citizens of Carbonade concerning the Carbonade branch of the Kansas City, Wyandotte & Northwestern. On the 1st of April last the road was vacated and since that time no trains have run. Several complaints from the vicinity of Carbonade have been filed but the board has taken no action in the matter.

Depew a L. S. & M. S. Director.

CLEVELAND, May 2.—At the Lake Shore stockholders meeting today the only change made in the directory was the election of Chauncey M. Depew to serve for one year in place of John E. Burrell, deceased. The value of the stock voted was \$87,750,000. Hon. H. B. Payne presided at the meeting, and C. P. Leland was secretary.

More of the Frost Case.

Another one of the Frost cases is on trial this afternoon at Justice Grover's court. In this case, Mrs. John Frost is the complaining witness against Pearl Howard, who is the bosom friend of Mrs. Frantz, who is John Frost's sister. Their trouble is merely a continuation of the great Parkdale feud. It is charged that one lady called the other one bad names and cast reflections on her standing in the community.

Ascension Day Service.

Topeka Commandery No. 5, headed by Marshall's band, will attend divine service tomorrow afternoon at 4 o'clock in the first M. E. church. Services will be conducted by Sir Knight Rev. A. S. Ember. The public are cordially invited. Tomorrow evening the Sir Knights and their ladies will hold a reunion in the asylum, to which sojourning Sir Knights and their ladies are cordially invited.

Money for Five Tribes.

WASHINGTON, May 2.—Senator Berry today gave notice of an amendment to the sundry civil appropriation bill appropriating \$100,000 for the survey of the lands of the five civilized tribes of Indians in Indian Territory.

## LOCAL MENTION.

Labor Commissioner Todd has received a present of a set of double-trees.

The meeting of the state military board has been postponed to May 9.

Bessie Grimes, colored, aged 18 months, died of pneumonia last night at 1432 Quincy street.

The Republican congressional convention for the seventh district, will be held at Newton tomorrow.

Bank Commissioner Breidenthal has gone to Mound City, to turn over the bursted bank to the receiver.

The state house guide, J. M. Harrington, has resurrected the visitors register, and hereafter visitors will register their names.

There are in the governor's office a stack of the United States statutes of 1891-2-3, which will be distributed among practicing attorneys on application.

Rev. Dr. Blakesley, Rev. C. M. Sheldon and ten or more Congregationalists left today to attend a denominational association at Emporia, to be gone over Sunday.

Aurelia J. Gearhart has brought suit in the district court for a divorce from her husband, Geo. W. Gearhart. They are elderly people who live in Potwin. The divorce is asked for on the grounds of cruelty and non-support.

David Overmyer, who has returned from a trip to Wisconsin, says the story circulated last week to the effect that he was likely to be appointed recorder of deeds of the District of Columbia isn't so. He says such an appointment has not even been suggested to him.

A dispatch received at the Santa Fe's mining department this noon from Chas. Devlin, says that the Santa Fe coal miners at Toluca, Ills., have not yet returned to work. The men fear that if they go to work the trouble will be renewed and seem to have very little faith in the state's ability to protect them.

H. G. Beedy, the South Topeka grocer who went to Emporia yesterday after the Sells & Rentfrow circus because one of the men had passed a counterfeit \$10 bill on him, secured a settlement in full from Manager Rentfrow, who also paid his expenses both ways. One of the Grost brothers accompanied him to Emporia, but today the other brother says that Rentfrow settled his bill at their butcher-shop before the circus left town.

It is not what its proprietors say, but what Hood's Sarsaparilla does, that tells the story of its merit. Hood's Sarsaparilla cures.

Just opened, an entire new list of straw goods for men, boys and children; all new goods; no last season's straws to be sandwiched in at last season's prices. Brown & Co., hatters and furnisiers, only, 805 Kansas ave.

Just opened, an entire new line of straw goods for men, boys and children; all new goods; no last season's straws to be sandwiched in at last season's prices. Brown & Co., hatters and furnisiers, only, 805 Kansas ave.

The children's kindergarten benefit is to be Saturday May 5, 3 p. m., in Hamilton hall.

W. H. Brown, a prominent attorney of Paola, is spending a few days in Topeka looking after the candidacy of Tom Kelly for state auditor.

## NEWS OF KANSAS.

Corner Stone of the New McPherson Court House

Laid Yesterday With Many Splendid Features.

## OTHER STATE NEWS.

J. W. Ady Sues the United States for \$794.

McPHERSON, May 2.—The corner stone of McPherson county's new court house was laid here yesterday afternoon with imposing ceremonies, conducted by the Kansas Masonic Grand Lodge.

Grand Master Mason George W. Clark officiated as master of ceremonies, and the local lodge of Masons and other local secret societies participated.

The event was made the occasion for a meeting of the old settlers of the county and a gathering of the people from all parts of the county. A pleasing feature of the ceremonies was the part taken by the school children of the county. A procession of 800 school children marched in double file around the foundation of the new structure, as the corner stone was about to be put in place.

The address of welcome was delivered by Lawyer Frank Gratton, and the principal address was made by M. P. Simpson. The new court house is to cost \$50,000.

## WARMEST APRIL FOR YEARS.

Chancellor Snow's Report Says One Day in April the Temperature Was 90.

LAWRENCE, May 2.—Prof. Snow's report for the month of April contains the following figures:

The warmest April in 27 years, except April 1878. The rainfall was nearly normal, and well distributed throughout the month. The sky was clearer than usual; the barometer was higher than the average, and the wind lower. The last light frost of spring occurred on the 22nd.

Mean temperature—58.32 degrees, which is 8.89 degrees above the April average. The highest temperature was 90 degrees on the 28th; the lowest was 32.5 degrees on the 1st and 6th, giving a range of 57.5 degrees.

Rainfall—3.09 inches, which is 0.11 inches below the April average. Rain in measurable quantities fell on 12 days. There were 5 thunder showers. The entire rainfall for the four months of 1894, now complete, is 8.06 inches, which is 0.27 inches below the average for the same months in the 26 years preceding.

## COMMUNION TABLE LINEN STOLEN.

Presbyterians of Solomon Presbytery Don't Dwell Together in Brotherly Love.

ABILENE, May 2.—The committee appointed by the Solomon Presbytery to hear a church trial brought from the Cheever township is now in session here. Dr. F. S. Blayney presides and most of the time has been spent in executive session. The case grows out of neighborhood jealousies and the disappearance of some church linen used on the communion table, etc.

A social was held some months ago, in the cleaning up of which the linen disappeared and accusations as to who took it resulted in open charges and finally in its being brought before the presbytery.

## ADY SUES UNITED STATES.

Claims He Was Not Paid for Some Services Rendered.

WICHITA, May 2.—Hon. Joseph W. Ady of Newton, is not so busy chasing the senatorial situation about the lobbies at Washington but that he finds time to file a unique suit with Commissioner Shearman against the United States.

This suit is entitled Joseph W. Ady vs. The United States. The amount asked in the case is \$794.65. The reason assigned for the suit is that the United States district attorney Ady rendered services not required by law and for which there were no fees attached. He wants to find out just where he stands in the matter.

## MAKING A RELIGIOUS CENSUS.

Wellington Ministers Gathering Church Statistics From Every Person in Town.

WELLINGTON, May 2.—The ministerial alliance of Wellington, containing all the pastors of the Protestant churches, has determined to take a religious census of every man, woman and child in the city. The census will contain the facts regarding the religious identification of each citizen, religious training and trust or distrust in the inerrableness of the scriptures.

The city will be divided into districts and the census will be taken by the pastors in person. The collection of information will be begun next week.

## BLEW HIS OWN HEAD OFF.

A Wealthy Swede at Lawrence Kills Himself With a Shot Gun.

LAWRENCE, May 2.—Louis Peterson, a wealthy Swede, living at 820 Rhode Island street, killed himself by shooting his head off. Suicide was plainly contemplated, as Peterson had taken a quilt from the bed on which he had been lying, and placed it upon the floor to fall upon. He had all his clothes on except his shoes and stockings. The weapon he used was a double barreled shot gun and death must have been instantaneous.

The charge blew his brains out and took with it a tooth that became lodged in the ceiling over the spot where he fell.

Peterson was about 62 years of age and had been drinking heavily lately. Ever since the death of his eldest son Willie, who clerked many years in Weaver's, he had appeared despondent and seemingly deranged in mind.

## PITTSBURG'S HOME GUARD.

One Hundred and Fifty Enlisted in a Brigade to Stand by Coxey.

PITTSBURG, May 2.—Pittsburg now has a full-fledged Coxey reserve home guard. At a meeting called to consider the Coxey movement resolutions were passed laudatory to the Kansas delegation in congress relative to its course regarding the Coxey movement. A separate one highly praising Congressman Hudson's decided stand was passed amid enthusiasm. A colonel of the army was selected in the person of J. N. Burgess and two recruiting offices opened.

Already about 150 names have been added to the rolls. Arrangements were made for a monster Coxey picnic to be held at Frontenac Saturday, May 12, at which it is expected to swell the number of recruits to large dimensions.

## WINFIELD COMMENDS COXEY.

Resolutions Adopted Favoring His Stirring Up Congress.

WINFIELD, May 2.—Several hundred men met at the court house in answer to a call to attend a "Coxey meeting."

W. P. Hackney made a speech that was even a credit to Mr. Hackney. S. M. Scott, chairman of the board of public works, from Emporia, followed with an address.

Sol Smith then read a set of resolutions, commending "General" Coxey for his admirable way of stirring up congress and petitioning that honorable body to open their eyes and ears and to listen to what the army of the commonwealth had to say. These resolutions were adopted.

## Gove County Delegates.

The Gove county Republican convention has elected the following delegates to the state convention: I. T. Purcell, C. E. Pierce and O. B. Jones. The delegation goes uninstructed.

Omaha, Neb., May 4, 1894.

To Whom It May Concern;

I am troubled considerably with headache and have tried almost everything which is used a preventive or cure, but there is nothing that has done me so much good as Krause's Headache Capsules.

Sold by all druggists.

The STATE JOURNAL'S Want and Miscellaneous columns reach each working day in the week more than twice as many Topeka people as can be reached through any other paper. This is a fact.

Procrastination is the Thief of Time.

We offer to the public in the CUBER COUGH CURE a most excellent cough remedy, both as a preventative and cure if taken in time or when first symptoms appear. It never fails to prevent and break up that which otherwise might result in a severe spell of sickness.

Sold by Rowley Bros.

## HOPE FOR DYSPEPTICS.

A Natural Food That Does Not Require Digestion.

THE WAY IT IS DONE.

How Mixing With Fruit Acids Digests Food Before It is Even Taken Into the Mouth.

Natural foods are as a rule insoluble. They must be dissolved before they can be absorbed.

Digestion is the dissolving of food in our mouth, stomach and intestines. It is done by special ferments prepared by special organs.

A great deal of energy is used up in digestion. Well people can spare this energy, sick people cannot. People who have not sufficient energy suffer from indigestion.

It is plain that Paskola, which is an artificially digested food, will save a sick person a good deal of energy.

Artificial digestion is the dissolving of food outside the body by the same ferments that dissolve it inside the body. Paskola is a fattening food made of grains and fruit that has been digested in this way. It also aids in the digestion of other food.

Sick people need all their energy to get well. They should take Paskola. This people spend their energy in business or other cares and worry. Paskola will make them fat without giving their digestive organs any work.

Paskola is an ideal natural fattening food. It is more. It is a natural tonic food that does not create false new energy but helps you to husband what you have.

Any one who reads the thankful words which follow will be convinced of the surpassing worth of this great artificially digested food:

Weston, N. J., March 8, 1894.

The Pre-Digested Food Co., 30 Reads st., New York.

GENTLEMEN: Yours of recent date at hand. I have given the pamphlets to different persons as requested.

And now let me add that I have not changed my mind in any reference to the superior value of Paskola, not I, it is doing wonderful work. Not only is it running and crystal like in appearance, but its worth is felt more every day since I commenced using it. I take it according to directions, and what is still more, instead of its being nauseating and unpleasant, it is delicious.

I think also that Paskola needs little advertisement and few testimonials as it will be accepted on its own merits, this being sufficient to convince the most skeptical after a trial of a day or two at longest.

I say it is a food fully capable of doing even more good than for which it is advertised (dyspepsia).

I consider it simple duty to tell what it is doing for me, that the discovery may be encouraged and assured of its marvelous value.

Respectfully,

MRS. R. P. CASE.

BRIDGEPORT, N. J., April 11, 1894.

The Pre-Digested Food Co., 30 Reads st., New York.

GENTLEMEN: Seeing your advertisement of Paskola as a flesh forming food, I concluded to test the merits of your preparation for my little girl who is now four years of age, and has always been thin and puny. In fact, has been under the doctor's care from birth.

Before the first bottle had been consumed I discharged the doctor, as I noticed such a marked and rapid change for the better, as she is rapidly gaining in flesh. Her little face, once so thin and colorless, is now rounding up daily and I notice a pink tint on her cheeks that I never saw before.

Paskola is worth its weight in gold.

WM. W. MILLER.

Paskola may be obtained of any reputable druggist. A pamphlet on food and digestion will be mailed free, on application to The Pre-Digested Food Co., 30 Reads st., New York.

# H. H. MILLS & SON
